

***ALLIANCE PARTNERSHIP

Executive Search

- Alliance Partnership International was founded in **1996**, by some of the most successful and experienced independent **executive search** companies.
- After a period of inactivity, in 2009, the organization was re-established in Barcelona, Spain; since then, it has continuously grown.
- Between the extremes of totally integrated firms and loose associations with only occasional links, Alliance Partnership International has chosen the format of an **international partnership between equals**.
- These are the qualities most clearly associated with **independent, owner managed**, consultancy firms.

- Our approach to executive search is to place the emphasis on **ownership and the customer's satisfaction**.
- We believe that international searches are **best conducted by professionals who are nationals** in the countries in which they are operating in and who are, therefore, more in tune with the social, cultural, and economic values pertaining to their environment.
- Our search for excellence on every assignment places emphasis not only on the **highest qualitative standards**, but also on an in-depth **knowledge of the market** sectors in which we work.

- Each member of Alliance Partnership International is capable of **identifying with the cultures of multinational corporate clients** and of bringing to those clients the same consistent, high added value standards of consulting.
- Together we also have all the necessary resources to allow the completion of the most complex **international and multi-country searches.**

- In Alliance Partnership International, each member firm has an established **reputation for excellence and the highest ethical standards**. All our partners are operating at the top of their profession and have taken on an entrepreneurial risk.
- Geographically we cover **Europe** widely and we include members and associates in the **Americas, Asia** and **Africa**.
- We now have 31 offices worldwide.

The organization has its HQ in Barcelona, Spain; and legally is an NPO with an **Executive board** composed of:

- PRESIDENT: Santiago Tarín Puig (Spain)
- VICE-PRESIDENT: Heiner Fischer (Germany)
- VICE-PRESIDENT: Frank van der Linden (Netherlands)
- TREASURER: Sylvie Baychelier (France)
- SECRETARY: Robert Simon Graham (UK)
